MEDICAL APPLICATION CAUTION: Do not use this material in medical applications involving permanent implantation in the human body or permanent contact with internal body fluids or tissues fluids or tissues.

Do not use this material in medical applications involving brief or temporary implantation in the human body or contact with internal body fluids or tissues unless the material has been provided directly from Chevron Phillips Chemical Company LP or its legal affiliates under an agreement which expressly acknowledges the contemplated use.

Chevron Phillips Chemical Company LP and its legal affiliates makes no representation, promise, express warranty or implied warranty concerning the suitability of this material for use in implantation in the human body or in contact with internal body fluids or tissues.

SECTION 2: Hazards identification

2.1

Classification of the substance or mixture REGULATION (EC) No 1272/2008

Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008.

2.2

Labeling (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008.

SECTION 3: Composition/information on ingredients

3.1 - <mark>3.2</mark>

Substance or Mixture

Hazardous ingredients

| Chemical name | CAS-No.ClassificationEC-No.(REGULATION (EC) NoIndex No.1272/2008) | | Concentration [wt%] | | | |
|---|---|--|------------------------|--|--|--|
| Polyethylene Hexene Copolymer | 25213-02-9 | | 99 - 100 | | | |
| Contains no hazardous ingredients according to GHS. : | | | | | | |

SECTION 4: First aid measures

4.1

Description of first-aid measures

| If inhaled | : Move to fresh air in case of accidental inhalation of dust or fumes from overheating or combustion. If symptoms persist, call a physician. |
|-------------------------|--|
| In case of skin contact | : If the molten material gets on skin, quickly cool in water. Seek immediate medical attention. Do not try to peel the solidified material from the skin or use solvents or thinners to dissolve it. |
| SDS Number:100000104080 | 2/11 |

| | sion 1.1 | Ory | Revision Date 2019-10-2 |
| | In case of eye contact | : | In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice. |
| | If swallowed | : | Do not induce vomiting without medical advice. |
| SEC | CTION 5: Firefighting measu | ires | |
| | Flash point | : | No data available |
| | Autoignition temperature | : | No data available |
| 5.1 | Extinguishing media | | |
| | Suitable extinguishing media | : | Water. Water mist. Dry chemical. Carbon dioxide (CO2). Foam. If possible, water should be applied as a spray from a fogging nozzle since this is a surface burning material. The application of high velocity water will spread the burning surface layer. Avoid the use of straight streams that may create a dust cloud and the risk of a dust explosion. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| | | | |
| 5.2 | Special hazards arising fro Specific hazards during fire fighting | | |
| | Specific hazards during fire | | Risks of ignition followed by flame propagation or secondary explosions can be caused by the accumulation of dust, e.g. on |

SAFETY DATA SHEET

Version 1.1

Revision Date 2019-10-28

| | | Environmental precautions | : | Do not contaminate surface water. Prevent product from entering drains. |
|---|-----|--|---|--|
| 6 | 5.3 | Methods and materials for c Methods for cleaning up | | tainment and cleaning up Clean up promptly by sweeping or vacuum. |
| | | Additional advice | : | Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). |
| 6 | 5.4 | Reference to other sections | | |

| SEC | CTION 7: Handling and storag | je | |
|-----|---|----|---|
| 7.1 | Precautions for safe handlin Handling | ŋ | |
| | Advice on safe handling | : | Use good housekeeping for safe handling of the product. Keep out of water sources and sewers. |
| | | | Spilled pellets and powders may create a slipping hazard. |
| | | | Electrostatic charge may accumulate and create a hazardous condition when handling this material. To minimize this hazard, bonding and grounding may be necessary, but may not by themselves be sufficient. At elevated temperatures (>350°F, >177°C), polyethylene can release vapors and gases, which are irritating to the mucous membranes of the eyes, mouth, throat, and lungs. These substances may include acetaldehyde, acetone, acetic acid, formic acid, formaldehyde and acrolein. Based on animal data and limited epidemiological evidence, formaldehyde has been listed as a carcinogen. Following all recommendations within this SDS should minimize exposure to thermal processing emissions. |
| | Advice on protection against fire and explosion | : | Treat as a solid that can burn. Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. |
| 7.2 | Conditions for safe storage, | in | cluding any incompatibilities |
| | Storage | | |
| | Requirements for storage areas and containers | : | Keep in a dry place. Keep in a well-ventilated place. |
| | Advice on common storage | : | Do not store together with oxidizing and self-igniting products. |
| SDS | S Number:100000104080 | | 4/11 |

Version 1.1

Revision Date 2019-10-28

SAFETY DATA SHEET

SECTION 8: Exposure controls/personal protection

8.2

Exposure controls Engineering measures

Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment

| Respiratory protection | No respiratory protection is normally required. If heated material generates vapor or fumes that are not adequately controlled by ventilation, wear an appropriate respirator. Use the following elements for air-purifying respirators: Organic Vapor and Formaldehyde. Use a positive pressure, air- supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection. Dust safety masks are recommended when the dust concentration is excessive. |
|--------------------------|---|
| Eye protection | Use of safety glasses with side shields for solid handling is good industrial practice. If this material is heated, wear chemical goggles or safety glasses with side shields or a face shield. If there is potential for dust, use chemical goggles. |
| Skin and body protection | At ambient temperatures use of clean and protective clothing is good industrial practice. If the material is heated or molten, wear thermally insulated, heat-resistant gloves that are able to withstand the temperature of the molten product. If this material is heated, wear insulated clothing to prevent skin contact if engineering controls or work practices are not adequate. |

SECTION 9: Physical and chemical properties

Marlex® HXM 56120 Polyethylene

Version 1.1 Revision Date 2019-10-28 which are irritating to the mucous membranes of the eyes, mouth, throat, and lungs. Generally these irritant effects are all transitory. However, prolonged exposure to irritating off-gases can lead to pulmonary edema. Formaldehyde (an aldehyde) has been classified as a carcinogen based on animal data and limited epidemiological evidence. **SECTION 12: Ecological information** 12.1 Toxicity **Ecotoxicity effects** 12.2 Persistence and degradability Biodegradability : This material is not expected to be readily biodegradable. 12.3 **Bioaccumulative potential** Elimination information (persistence and degradability) Bioaccumulation : Does not bioaccumulate. 12.4 Mobility in soil Mobility : The product is insoluble and floats on water. 12.5 Results of PBT and vPvB assessment 12.6 Other adverse effects Additional ecological : This material is not expected to be harmful to aquatic information organisms., Fish or birds may eat pellets which may obstruct their digestive tracts. Ecotoxicology Assessment Short-term (acute) aquatic : This product has no known ecotoxicological effects. hazard Long-term (chronic) aquatic : This product has no known ecotoxicological effects. hazard **SECTION 13: Disposal considerations** 13.1 Waste treatment methods The information in this SDS pertains only to the product as shipped. Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility. SDS Number:100000104080 8/11

SECTION 14: Transport information

14.1 - 14.7

Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

US DOT (UNITED STATES DEPARTMENT OF TRANSPORTATION) NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

IMO / IMDG (INTERNATIONAL MARITIME DANGEROUS GOODS)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

IATA (INTERNATIONAL AIR TRANSPORT ASSOCIATION)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

ADR (AGREEMENT ON DANGEROUS GOODS BY ROAD (EUROPE)) NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

RID (REGULATIONS CONCERNING THE INTERNATIONAL TRANSPORT OF DANGEROUS GOODS (EUROPE))

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

ADN (EUROPEAN AGREEMENT CONCERNING THE INTERNATIONAL CARRIAGE OF DANGEROUS GOODS BY INLAND WATERWAYS) NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR

TRANSPORTATION BY THIS AGENCY.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
